

# Texas Sports Therapy Center

Orthopedic Specialists of North Texas has chosen to provide therapy on site with the belief that our physicians' feel your therapy experience is absolutely critical to your recovery from injury or surgery. By having ongoing, immediate and direct access to your physician and their personal staff, our therapists are able to seek direct counsel as well as report your progress – not by fax or by letter, but through daily face-to-face communication with your physician. No other therapist knows your physicians' goals, time lines and protocols better than our therapists. The result for you is a custom, personal therapy program tailored specifically to your needs, all in a specialized environment. All members of our physical therapy team are licensed by the Texas Physical Therapy Board and treat all common musculoskeletal conditions. Our staff has over 40 years of experience and specializes in orthopedic/sports medicine based physical therapy.

### Physical Therapy Appointment Scheduling:

Monday - Friday 7 am - 6 pm • 940-382-2649

If for some reason you cannot make your appointment, we require that you call at least 24-hours in advance.

PHYSICAL THERAPY AND IMAGING SERVICES

## North Texas MRI Advanced OPEN Imaging

MRI (Magnetic Resonance Imaging) is one of the most accurate methods of diagnostic imaging available today. MRI enables your physician to view the inner body without the use of x-rays or invasive procedures. The precise diagnosis of various medical conditions and musculoskeletal disorders are more accurately obtained in very early stages.

An OPEN MRI provides a more relaxed, less confining environment than traditional MRI's and offer lower noise levels and less knocking sounds. Claustrophobic, obese and pediatric patients, along with those suffering from post-traumatic stress syndrome, are often able to comfortably undergo MRI examinations in these "open architecture" systems.

North Texas MRI is dedicated to providing outstanding care and comfort to our patients. All the more reason to have your OPEN MRI at North Texas MRI.

OPEN MRI is available for the following:

- ★ brain disorders
- ★ traumatic injuries
- ★ spine diseases
- ★ knee and shoulder injuries
- ★ musculoskeletal disorders
- ★ facial/neck abnormalities
- ★ limited infections
- ★ tumor detection

\* Currently contrast studies are not done at this location.

## Acute Sports Injury

Monday – Friday. Call in between 8:00 am – 8:30 am for same day appointment for Acute Sports Injuries Only. Most insurance policies accepted.
